TECHNICAL SKILLS

Languages: Python, Java, JavaScript, CSS, HTML, SQL | **Frameworks/Libraries:** Flask, Django, React, Redux, EmailJS, Next.js, Node.js, Mongoose, Express, Socket.io, Spring MVC, Bootstrap, Materialize, Tailwind, SASS/LESS | **Databases:** MySQL, MongoDB | **Cloud:** AWS EC2, Gunicorn, Nginx, Vercel | **Web Technologies:** RESTful API, Rest Controller, AJAX, Context API, Axios | **Tools:** Git, Github, Terminal, GitBash, Powershell, VS Code, SpringBoot, Postman, JSON, Bcrypt, Jinja, JSX, MySQL Workbench, MongoDB Compass/Atlas, OOP, Figma, Balsamiq

TECHNICAL PROJECTS

Lead Software Engineer | *Just 4 Kicks (e-commerce)* | just4kicks.cosornio.com

Stack: JavaScript, React/Redux, MongoDB, Express, Node.js, Tailwind CSS

- Developed responsive single page application with React / Redux and deployed with AWS EC2 for enhanced performance and scalability.
- Managed overall project by employing Agile methodology, delegated tasks to a team with multiple contributors using GitHub's version control and Kanban board to ensure timely delivery and efficient workflow management.
- Designed secure login/registration modals with Bcrypt and implemented complete CRUD functionality over user profiles for intuitive profile management.
- Integrated PayPal API for secure and seamless payment processing.
- Implemented inventory, pagination, search, and sorting functionalities via 3rd Party RapidAPI to streamline the development process without sacrificing user experience.

Software Engineer | *Kringle* | kringle.cosornio.com

Stack: JavaScript, React, MongoDB, Mongoose, Express, Node.js, Bootstrap

- Developed a feature-rich, JavaScript full-stack application for organizing Secret Santa gift exchanges using React, useContext/useReducer for global state management, and deployed using AWS EC2 for future scalability.
- Leveraged protected routes to enable a seamless and secure user experience, allowing users to draw names in secret and guests to easily join a Secret Santa party by registering with the same email from the invitation.
- Designed reusable React components, used useContext/useReducer for state management, and utilized React Bootstrap for an organic UI, for efficient development and code maintenance.
- Implemented MongoDB with Mongoose for reliable and scalable data storage, and developed CRUD functionality for parties and wishlists, enabling seamless data management and enhancing overall user experience.

PROFESSIONAL EXPERIENCE

Mortgage Underwriter | *Better.com* | Remote

2019 - 2022

- Graduated Valedictorian through Better Mortgage's Underwriting University class of 2020.
- Conducted thorough credit report reviews, calculated income, and reviewed assets for loan qualification.
- Communicated effectively with customers, loan officers, and processors to ensure smooth loan processes and positive customer experiences, showcasing excellent interpersonal and communication skills.

Sr. Loan Consultant | *Ally Financial (Acquired BlueYield Oct 2016)* | Aliso Viejo, CA

2015 - 2019

- Assisted in development and implementation of new lending policies and procedures, resulting in increased efficiency and customer satisfaction.
- Utilized technical skills and software to manage loan applications and ensure compliance with industry regulations and guidelines, demonstrating attention to detail and strong problem-solving skills.

EDUCATION

Full-Stack Software Development Certificate | *Coding Dojo* |

2023

- 8 Month Coding Bootcamp with over 640 hours in Python, Java, and JavaScript (MERN)

Associate of Arts, Business Administration | *Fullerton College*

2021

EXTRA:

- Overcame the challenge of updating a complex nested user model by applying sound software engineering principles and industry best practices, demonstrating a solid grasp of software design and development.
