TECHNICAL SKILLS

Languages/ Stacks: Python, Java, JavaScript (MERN), CSS, HTML, SQL | **Frameworks/Libraries:** Flask, Django, React, Redux, EmailJS, Next.js, Node.js, Mongoose, Express, Socket.io, Spring MVC, Bootstrap, Materialize, Tailwind, SASS/LESS | **Databases:** MySQL, MongoDB | **Cloud:** AWS EC2, Gunicorn, Nginx, Vercel | **Web Technologies:** RESTful APIs, Rest Controller, AJAX, Context API, Axios | **Tools:** Git, Github, Terminal, GitBash, Powershell, VS Code, SpringBoot, Postman, JSON, Bcrypt, Jinja, JSX, MySQL Workbench, MongoDB Compass/Atlas, OOP, Figma, Balsamiq

TECHNICAL PROJECTS

Lead Software Engineer | *Just 4 Kicks (e-commerce)* | just4kicks.cosornio.com

Stack: JavaScript, React/Redux, MongoDB, Express, Node.js, Tailwind CSS

- Developed and deployed a full stack e-commerce website for sneaker enthusiasts using JavaScript, React/Redux, MongoDB, Express, Node.js, and AWS EC2 deployment for enhanced performance and scalability.
- Utilized Git and GitHub's Kanban board to delegate tasks and collaborated with a team of multiple contributors while adhering to Agile methodology principles to ensure timely delivery and efficient workflow management.
- Designed secure login/registration modals with Bcrypt and implemented complete CRUD functionality over user profiles for efficient and hassle-free profile management.
- Leveraged PayPal API for secure payment processing, ensuring a seamless transaction experience for customers.
- Utilized 3rd Party RapidAPI to add inventory, pagination, search, and sorting capabilities allowing for a more efficient and user-friendly e-commerce experience.

Software Engineer | *Kringle* | kringle.cosornio.com

Stack: JavaScript, React, MongoDB, Mongoose, Express, Node.js, Bootstrap

- Developed a feature-rich, JavaScript full-stack application for organizing Secret Santa gift exchanges using React, useContext/useReducer for global state management, and deployed using AWS EC2 for scalability.
 - Leveraged protected routes to enable a seamless and secure user experience, allowing users to draw names in secret and guests to easily join a Secret Santa party by registering with the same email from the invitation.
 - Designed reusable React components, using useContext/useReducer for state management, and utilized React Bootstrap for an aesthetically pleasing UI, which resulted in efficient development and code maintenance.
 - Implemented MongoDB with Mongoose for reliable and scalable data storage, and developed CRUD functionality for parties and wishlists, enabling seamless data management and enhancing overall user experience.
 - Completed the project independently, handling all phases of development from conception to deployment.
-

PROFESSIONAL EXPERIENCE

Mortgage Underwriter | *Better.com* | Remote

2019 - 2022

- Graduated Valedictorian through Better Mortgage's Underwriting University class of 2020.
- Conducted thorough credit report reviews, calculated income, and reviewed assets for loan qualification.
- Analyzed risk and made recommendations to help facilitate/streamline loan processes.

Sr. Loan Consultant | *Ally Financial (Acquired BlueYield Oct 2016)* | Aliso Viejo, CA

2015 - 2019

- Assisted in development and implementation of new lending policies and procedures.
 - Utilized technical skills and software to manage loan applications and ensure compliance with industry regulations and guidelines.
-

EDUCATION

Full-Stack Software Development Certificate | *Coding Dojo* |

- 8 Month Coding Bootcamp with over 640 hours in Python, Java, and JavaScript (MERN)

Associate of Arts, Business Administration | *Fullerton College*
